

AI FOUNDATION

Build Clarity. Gain Confidence. Take the Right Next Step in AI.

AI is everywhere — but confusion is even bigger. **AI Foundation** is a focused 2-hour session designed to give you a *clear mental model* of AI, without hype or unnecessary math.

Program Details

- **Duration:** 2 Hours
 - **Mode:** Online (Zoom)
 - **Fee:** ₹1000
 - **Batch Size:** Only **20 participants** (limited seats)
-

Who Is This For?

This session is ideal for: - Software Engineers - Data Engineers - QA / Test Engineers - Tech Leads & Managers - Anyone confused about AI but wants clarity

No prior AI or ML experience required.

What You Will Gain (Outcomes)

By the end of this session, you will: - Understand **what AI really is** (and what it is not) - Clearly differentiate **AI, ML, DL, LLMs, GenAI** - Know where **AI fits into your current role** - Gain **confidence to talk about AI** in meetings and interviews - Get **clear next steps** to continue your AI journey

This is about **thinking clearly**, not memorizing tools.

What We Will Cover

- AI fundamentals explained with **engineering mindset**
 - Real-world examples (not theory-heavy)
 - How companies are *actually* using AI
 - Common myths & misconceptions about AI
 - Career impact of AI for different roles
-

Instructor

Led by an industry professional with **18+ years of IT experience**, focusing on: - Practical understanding - System-level thinking - Long-term career growth

Why This Session Is Different

- No hype, no buzzwords
- Simple explanations
- Practical perspective
- Limited seats for interaction

If this session helps even **one person gain clarity**, it has done its job.

Registration

Seats are limited to **20 participants only**.
